## MEMBERS OF STORER POST HONOR THEIR DEAD

**In Conjunction With Relief Corps  
Hold Impressive Services For  
Those Who Have Answered the  
Last Roll During the Year**

Impressive memorial services in memory of their deceased comrades were held on Sunday afternoon at Odd Fellows hall by the members of Storer Post, No. 1, G. A. R., and Relief Corps. The members of Camp Winfield Scott, United Spanish War Veterans, and members of Henry L. Richards Camp, Sons of Veterans, were also present in good numbers. Deep interest was manifested throughout the entire program by those present and the services of 1915 were surely a fitting tribute to the deceased comrades.

The services under the auspices of Storer Relief Corps were first held, Mrs. Charles W. Greene presided and introduced Mrs. Martha Rhoades who delivered a brief but impressive eulogy in memory of Mrs. Mary E. Smart, a charter member of the Corps.

Mrs. Rhoades spoke as follows: "Mrs. President, Officers and Members of Storer Post, G. A. R., Members of Woman's Relief Corps and Friends: 'The wheels of Time fly swiftly around, bringing to us once again, the end yet sacred duties of Memorial Day. During the past months a few of our members, especially our beloved Chaplain, have been seriously ill, and we were almost without hope, but thanks to our dear Heavenly Parent, He has guided them safely through to us for a while longer. Yet our hearts still sorrow for one of our number, Mrs. Mary E. Smart, an honored and beloved charter member."

Comrade M. H. Bell in the following well chosen words presented Miss Laura Elizabeth Marshall of the Whipple school, who had been selected to present the wreath of immortelles to Storer Post in behalf of the school children. His remarks were as follows: "Again we are assembled to pay tribute to those who have answered the last roll during the year."

## Prompt Reparation From Germany Will Be Demanded For the Sinking of the Gulflight and Attack on the Cushing

### Second Neutral Vessel Sunk By Germans Within Forty-Eight Hours

(Special to The Herald)  
Washington, D. C., May 3.—The state department today directed Minister Van Dyke at The Hague, to obtain a full report from Consul General Listoe at Rotterdam, on the attack made upon the American steamer Cushing by a German aeroplane last Thursday. Three bombs were dropped by the aerial craft, one of them striking the ship. The American flag was flying from the vessel at the time she was struck.

This is the first intimation by the state department that it intends to exact prompt reparation from Germany. It was considered significant by state department officials that this message was sent immediately following the receipt of unofficial news that the American ship Gulflight had been torpedoed by a German submarine with loss of three lives.

(Special to The Herald)  
Washington, D. C., May 3.—Facing the gravest situation relative to violated neutrality which has arisen to affect the United States thus far in the European war, the state department today flatly declined to discuss the Gulflight incident.

Secretary of State Bryan declared that the department was not officially advised that the American vessel had been torpedoed by a German submarine. He denied that he had any official knowledge whatever concerning the affair and said that for the present he was awaiting a report from the American consul nearest the scene of the attack. The secretary appeared to regard the attack upon the Gulflight as one requiring the fullest investigation before representations should be made to Germany.

(Special to The Herald)  
Copenhagen, May 3.—The Swedish steamer Elida was torpedoed and sunk in the North Sea by a German submarine on Sunday while en route to England. This was the second neutral vessel sunk by the Germans within 24 hours, the American oil steamer Gulflight having been torpedoed on Saturday off the coast of England. The crew of the Elida was saved. The vessel was of 1124 tons gross, and hailed from Bergen.

## OUR BID IS THE LOWEST

### Local Navy Yard Will Build Ferry for \$84,000.

The bid of \$84,000 offered by the Portsmouth navy yard for the building of a ferry boat for Newport training station appears to be the lowest of any submitted by the several building firms for that job. The next lowest bid was from the Herreshoff Company of Bristol, R. I., which sent in \$94,000 for the work. The Industrial Manager and his assistants in the department have displayed no small amount of interest and worked many extra hours in the fight to obtain work of this kind for Portsmouth yard. The result of this competitive bidding is very gratifying to the yard officers and workmen and it should be seen to by the business men in this city and the New Hampshire delegation in Washington that we get all we are entitled to on every kind of a bid made to the navy and other departments for construction work at the local station.

### CATHOLIC CHURCH NOTES

Rev. Father Frederick of St. Ann's College, Manchester, assisted the acting pastor, Rev. Frank A. Mulvanity at the services on Sunday. The Holy Hour on Sunday evening from 7 to 8 was largely attended by the parishioners.

The funeral services of Teresa Hurley daughter of Mr. and Mrs. Charles F. Hurley, held at 3.30 this morning was attended by a large number of the church people in general. Many of the young friends of the deceased from the Portsmouth High school were present with whom she was a genuine favorite. Many beautiful floral tributes accompanied the remains

The Ladies Circle will meet on Thursday afternoon with Mrs. H. C. Moody, of Otis avenue.

The largest crowd in the history of the church attended the Sunday evening service at the Second Christian church. The auditorium was packed to the doors, there being about 325 persons present, including many from Kittery Point and Portsmouth. Rev. Mr. Yeomans delivered a rousing address on "Billy Sunday: the Man and His Message," which was illustrated by radiophone pictures of the Sunday tabernacle at Patterson, N. J., and the Billy Sunday workers. Songs sung at the Patterson meetings were rendered on a Victrola loaned through the kindness of Mr. Joseph M. Hassett, of Portsmouth. Owing to the great interest shown in the addresses by Rev. Mr. Yeomans, he will on next Sunday evening deliver Billy Sunday's famous "bozo" sermon, entitled, "Booze, or Get on the Water-Wagon." A special invitation is extended all members of the local W. C. T. U. to attend this service.

The regular monthly business meeting and social of the Christian Endeavor will be held in the vestry of the Second Christian church on Thursday evening.

Howard C. Moody left on Sunday for Portland where he will pass a few days with his mother, Mrs. A. H. Moody, who is ill at her home there.

Miss Stella Kramer, of York, passed the week-end in town the guest of her sister, Miss May Brown of Oak Bluff.

Mr. and Mrs. Joseph Crafts, of the Post road, are receiving congratulations upon the recent birth of a baby daughter.

The basket ball team of the Barnum club recently had a group photograph taken in uniform, as did also the "C" five team.

Miss Elizabeth Gamson is confined to her home in North Kittery by illness.

## Benny Kauff Started a Pretty Row in His Sensational Leap to the Giants

New York, May 2.—Benny Kauff, the Ty Cobb of the Federal league, who jumped from the Brooklyn Federal league club to the Giants will not be permitted to play in the National league until the national commission has passed up on his case, and it is not at all unlikely that he will not be permitted to play at all for a year or two at least. Kauff's case presents a knotty problem to the high satchels of the G. L.—one which will require a shrewd interpretation of

baseball laws to solve. Kauff is not in the true sense of the term, a contract jumper. He refused to report to the Indianapolis American Association to which club he was sent from Hartford and he set his lot with the Indianapolis Federal league team. That organization blew up during the past winter and he was shifted to the Brooklyn. He signed a contract drawn up by a business manager of that town but the terms did not suit President Robert B. Ward and he would not sanction it. Ward made repeated

efforts to have Kauff sign another contract, but to no avail. Manager McGraw of the Giants knew all the facts in the case when he signed Benny up for three years, and there is not a doubt that he believed he was acting well within his rights in doing so. From where the majority of experts sit it looks as if a rule which will finally decide Kauff's status is that which blocklists a player who deserts a club, protected by the national agreement, to play with an outlaw organization.

His scope of usefulness and service was larger than his kinship and his nationality, and was world-wide. Thus by his union with the Father, he was to bring all mankind into one great brotherhood, and the place of the individual in this program was in the first place to bear his own burden, and by that work out not only his own personal salvation but also be of the greatest usefulness in bearing another's burden, and thus fulfilling the law of Christ. Rev. Mr. Hayes further remarked upon the high order and great principles to which the various members of the organization are bound together in this great three-link fraternity, and stood forth in matters of personal uplift, hospitality, benevolence, and the cultivation of the noblest sensibility. Heartly appreciation and commendation of the pastor was heard on all sides, and all members of both lodges were greatly pleased with Rev. Mr. Hayes' excellent discourse. The vesper service was likewise largely attended. The special music enjoyed at both services was greatly appreciated by all. In the morning Mrs. A. J. Hayes and Mr. Riner very excellently rendered a duet, and in the evening a fine solo was sung by Mr. Albert I. Sprague, with a violin obligato by Mr. Berger. At this service also a quartet composed of the Mesdames Holbrook and Walker, and Messrs. Sprague and Riner, rendered several beautiful selections. A pleasing feature of the Sunday school hour was the presentation by Mr. E. G. Sweet, of a handsome bouquet of carnations to Mrs. A. J. Hayes from the people of the church as a token of their appreciation and welcome back for another year.

A meeting of the Boy Scouts will be held at 6:30 o'clock Tuesday evening in the vestry of the Second Methodist church.

An important meeting of the official board of the Second M. E. church will be held following the prayer meeting on Tuesday evening. All members are urgently requested to be present.

Mrs. J. S. Whitson and Mrs. William Taylor, of Exeter, were in town Saturday to attend the Phillips-Bickford wedding.

Ensign Ralph E. Dennett, accompanied by his friend, Lieut. Canine, both of the U. S. S. New Jersey, passed the week-end at the former's home in Kittery, also with his uncle, Capt. John Dennett of York.

Monday evening the dancing class will be held at 7:45; Miss Ruth B. Loughton, instructor.

Tuesday noon the usual luncheon will be served from 12 to 2.

The usual monthly business meeting will be held on Thursday evening at 7 o'clock.

The cooking class will be postponed until Friday evening at 7 o'clock.

The gymnasium class will be continued in the form of a bowling league in charge of Miss Jessie Woods.

## The Celebrated Franklin

The nice part about driving a Franklin is that there is not a lot to think about. You can start out on a drive and not wonder whether anything might go wrong.

Franklin direct air cooling takes away the bugaboo of freezing in the winter and overheating in the summer.

Comfort in an automobile is more than a matter of upholstery. That alone won't keep away road shocks. The type of springs has a lot to do with comfort, yet that is not the only factor.

True, the upholstery in the Franklin is very comfortable. The full-elliptic springs are the easiest riding possible. But there is still another big factor.

The Franklin has a wood chassis frame, very flexible, and absorbing road shocks. The wood frame has been a Franklin principle for fourteen years. Flexibility through and through is the secret of Franklin comfort.

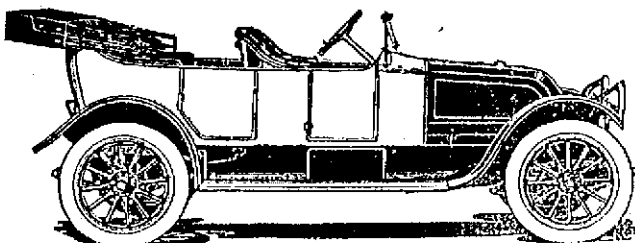

The Franklin is sold on facts. It is a fact that on September 24, 1914, 116 Franklin dealers in 116 different parts of the country ran 100 miles on low gear without stopping the engine—this in 10 hours time.

It is a fact that on May 1, 1914, 94 stock Franklins, running in 94 different parts of the country, averaged 32.8 miles per gallon of gasoline.

It is a fact that records from owners show an average of almost 9,000 miles on a set of tires.

It is a fact, which we would be glad to demonstrate, that a Franklin goes farthest in a day with the greatest comfort and at the least expense.

The Franklin is the efficient car.

Engine and Vehicle Patented July 2, 1908.

Weight 2750 Lbs., 4½ in. tires—Price \$2150.

THE FACT-BACKED FINE AUTOMOBILE

Large tires in combination with light weight and flexibility makes you feel secure against tire trouble.

Franklin owners average from 8 to 10 thousand miles on a set of tires.

With the Franklin, eternal vigilance is not necessary.

# BRILLIANT CHURCH WEDDING AT KITTERY

**Miss Charlotte Marion Bickford Becomes the Bride of John Byron Phillips of Kittery Point In the Presence of a Large Circle of Friends**

The Second Christian church at Kittery was the scene of a very pretty wedding on Saturday evening at 8 o'clock, the contracting parties being Miss Charlotte Marion Bickford, youngest daughter of Mr. and Mrs. Leslie Frost Bickford, and John Byron Phillips, son of Mr. and Mrs. John Alfred Phillips of Kittery Point.

The ceremony was performed by the Rev. Claude J. Yeomans and the bride couple were attended by Mrs. Alonzo Graham Hearn as matron of honor and Cushman Wendell Phillips as best man.

The bride was attractively attired in a dress of white silk chiffon over ivory satin, charmingly simple style, with trimmings of orange blossoms. Tulle veil, cap effect, caught with half circle of orange blossoms and spray of blue, falling on either side of veil.

The matron of honor wore a gown of yellow pussy willow tulle, shirred and corded effect, trimmings of net. The ushers were Laurence B. Wright and Percival C. Sides of Portsmouth, Arthur J. Prout and Earl L. Phillips of Kittery Point.

Immediately following the ceremony a reception was held in the vestry, the couple being assisted in receiving by their parents, Mr. and Mrs. Leslie Frost Bickford and Mr. and Mrs. John Alfred Phillips. Mrs. Bickford was at-

tired in silk dress, putty shade, with trimmings of orange lace. Mrs. Phillips was attired in a silk gown of sand shade, with trimmings of cream lace. Refreshments of Harlequin loaves, wafers, cake and fruit punch were served. Miss Ella F. Lowd presided at the punch bowl.

The vestry in which the reception was held was handsomely decorated by the members of the Phoebe, of which society the bride has been an active member. The church was also prettily decorated with palms and potted plants the work being done by a local florist.

The gift of to the groom to the bride was a gold brooch with miniature; the gift of the bride to the groom was a gold watch chain, chain and wedding bell having a pearl tongue; the groom's gift to the bride was a gold tie clasp with initials; the bride's gift to the bridesmaid was gold friendship pins.

The bride's traveling suit was a Gaudine, putty shade, silk waist of buff color, turban hat of fancy straw with trimmings of dark brown velvet and buff colored silk lace.

Their bridal trip will include New York and Washington. In the latter city they will be the guests of Mr. and Mrs. G. M. Haynes, the latter the bride's sister.

On their return they will reside with

the bride's parents until the erection of their new home which is to be built on a lot near Cook's hill.

Both the bride and groom are graduates of the class of 1908 at the Academy. The groom is employed on the navy yard as an electrical machinist, while the bride has been proof reader at The Times for the past six years.

Over 300 invitations were issued for the wedding and guests were present from Boston, New York and Portland, Me.

Mr. and Mrs. Phillips start their married life with the best wishes of a large circle of acquaintances.

## ITALIAN HELD ON SERIOUS CHARGE

**DEMANDED INSURANCE MONEY FROM SALVATORE COREA AT POINT OF PISTOL**

P. DiVeglio, aged 18, undertook to collect some insurance money on Saturday evening by force of arms and in consequence is confined in the police station on a serious charge.

On Saturday evening Salvatore Corea, a well known resident of the North End, who acts as an agent for a health and life insurance company appeared at the police station in a very excited state of mind and informed Captain Burke that a fellow countryman had demanded \$5 from him at the point of a revolver. Not liking the looks of the weapon Corea had complied with the demand "to lay \$5 down on the box."

A warrant was issued, but it was not until Sunday afternoon that the much wanted man was found at a farm on the Greenland road by officers Schröder and Condon and placed under arrest.

An effort was made after the arrest to compromise the affair but Marshal Sturley will make the man face the court today as he is determined to stop some of the gun play that has been going on among the residents of the North End.

## How Studebaker cars are built— axles

## —not a halfway type but a REAL Full-floating axle

Maybe you already know what they mean when they talk about an "ordinary live" axle, or a "semi-floating" type. If you don't, you will readily appreciate the difference when you glance at the little illustrations at the side.

But the BIG thing that we'd like to fix in your mind now is that every Studebaker Car is built with a FULL-floating Rear Axle. Not a "type"—but a SAFETY-insuring rear axle that is designed and built in Studebaker plants for Studebaker Cars only.

With this axle, the entire weight of the car rests NOT on the axle shaft, but on the axle housing—a steel stamping that is light but EXTRA strong. And the side-thrusts that come when your car turns a corner fast or skids or drops into a rut are taken up by the TWO Timken bearings on the housing—and not by the shaft.

So that all the axle shaft has to do is to turn the wheel—to transform power into mileage. For one thing, this means SAFETY—safety such as you'd expect in a Studebaker. For it means that there's no danger of the wheel falling off even if the axle shaft by any mischance happens to break. You're SAFE on any roads at any speed.

The funeral services of Robert D. Fernald were held at his late home in Elliot on Sunday afternoon and were conducted by Rev. M. V. McAllister, pastor of the Congregational church. Burial was in Mt. Pleasant cemetery, the pall bearers being Moses Goodwin, George W. Webber, Orville Goodwin and Everett Moulton. Oliver W. Ham was the funeral director.

## RAW SKIMMED MILK A FOOT-AND-MOUTH MENACE

Large Number of Hogs Stricken in Present Outbreak Attributed to This Cause. Garbage Also May be a Carrier to Hogs.

Washington, D. C., May 2.—A feature of the present outbreak of foot-and-mouth disease to which the Federal authorities attach much importance is the unprecedentedly large number of hogs which have been affected. Both actually and in proportion to the total number of animals stricken, this has been much larger than in any of the previous outbreaks in this country. The chief reason, the authorities say, is the spread of the infection through uncooked skimmed milk and other creamery by-products returned to the farms to be fed hogs. Infected garbage, it is thought, is also to be held responsible for a portion of the loss.

In the epidemic of 1902 in which 4,461 animals were lost, only 350 of the total were hogs. The loss in cattle amounted to nearly 87 per cent of the total, that in hogs to only 3 per cent, and in other animals to only 5 per cent. In the present epidemic however the loss in hogs has been almost equal to that of cattle, each being within a fraction of 47 per cent. Of 146,123 animals lost since the outbreak of the disease in Michigan last fall, 58,778 were cattle; 63,275 hogs; and the remainder 9,087 sheep and goats. The epidemic of 1908 stands in this respect, as well as in time, midway between those of 1902 and 1914. In 1908, 55 per cent of the loss was in cattle, 37 per cent in hogs, and approximately 7 per cent in other animals.

In the opinion of specialists there figures demonstrate the necessity for more rigid regulations in regard to the feeding of skimmed milk, similar dairy products and garbage. Since 1902 creameries have become more common and the danger to the country of their returning unpasteurized milk to the farms has become correspondingly greater. In Michigan, it has been definitely established that in the early days of the outbreak the infection was spread through skimmed milk fed to hogs, and there is every reason to believe that the same thing occurred in a number of other localities. It is easy to pasteurize the skimmed milk and the extra expense is not sufficient to warrant the neglect of this precaution. Pasteurization has been shown to be a complete safeguard against the spread of foot-and-mouth disease

through milk either to human beings or to animals.

The question of infected garbage is more difficult to handle, for by no means all of the meat in this country is subject to Federal inspection. In many sections meat animals are slaughtered locally. Cooking will destroy the foot-and-mouth germ so that this meat can be eaten without bad results, but the trimmings—the skin, the fat, and particularly the marrow—which are thrown away or fed to hogs, may be at the same time highly infectious.

In Philadelphia the disease has recently appeared in several herds of garbage-fed hogs, and although it is not absolutely certain that the contagion was conveyed through this means it seems quite possible that it was. The sterilization of garbage intended for hogs is, therefore, like the pasteurization of skimmed milk and similar products, a very desirable precaution. In fact, the Federal authorities do not hesitate to say that experience in this outbreak demonstrates the need of state legislation on this subject. In the absence of legislation the farmer wishes to be sure of his skimmed milk should boil it after its return from the creamery.

Now that we have had a good rain, the farmers are hoping for some sunshine to do the rest.

## Big Things in Sports.

A few days ago under the heading, "The Age of Big Things," this paper published an editorial dealing with the change from small to large operations in the industrial line, showing how small manufacturing concerns were formerly scattered all through the eastern states have almost entirely given way to big concerns, established with large capital, employing great numbers of men and women and doing business on a scale that would once have been considered a dream if the possibility of such developments had been suggested.

And it is permissible to call attention, unnecessary though it may be, to the fact that similar enlargements have been and are being made in the field of amusements and public entertainment. In recent years great stadiums have been erected in which from 50,000 to 70,000 people can witness football games and other athletic sports, and on occasions of special events in this line special trains are run long distances from various quarters for the accommodation of the thousands who enjoy this sort of thing and are willing to pay thousands to see the games. Sports, like business, have indeed come to the age of big things.

Consequently, while there will be wide interest, there will be no surprise occasioned by the announcement that New York is preparing to establish one of the greatest motor speedways in the world. It is to be located at Sheephead Bay on the site of the old race track and is to be most elaborate, the company behind the enterprise being capitalized at \$2,500,000. The track will be two miles long, in oval form, and will be so perfectly constructed and graded at the turns as to make possible a speed of 140 miles an hour—more than two miles a minute. Think of it! There will be seating capacity for 200,000 spectators and the track will be the scene of the greatest motor racing that invention and mechanical skill have made possible. The track will be of brick construction, and perfection in every detail is aimed at by the projectors. In addition to motor racing the track will be a place for other outdoor sports, such as football, baseball, etc.

At first thought this would seem to be a serious financial venture, but when it is considered that there is a population of 8,000,000 within 20 miles it is easy to realize the possibility of profit, even on so large an investment. It is expected to have the track ready for use by early autumn.

Surely this is the age of big things, in play as well as in work. The little sports and home games still have their place like the remaining small industries that peg away here and there, but there is a public demand for bigger things, and they are coming.

Congressman Gussie Gardner of Massachusetts, son-in-law of Henry Cabot Lodge, and the Hon. George Von L. Meyer occupied a large amount of space in today's newspapers, crediting themselves to a great extent as being responsible for the up-building of the navy. Mr. Meyer's latest work contains nothing new in the way of attacks and the criticism of Secretary Daniels' letter to Mr. Garfield is simply a rehash of statements he has made before and which have been disproved. By the way, Mr. Meyer's elevation to public office, according to facts that have come out in the Roosevelt-Barnes libel suit, was due in a large measure to his contribution of \$50,000 to the campaign fund.

Major General Gorgas of the medical department of the United States army predicts that in time there will be a greater civilization in the tropics than has been developed in the temperate zone. This prediction is based on the progress that is being made in conquering disease in the tropics. After all, it is to be questioned whether men will ever hustle in the tropics as they do further north, and hustle is the principal ingredient in progress and civilization.

A Massachusetts jingo has been talking about the military blunders of the United States! which, according to his view, have been very grave from the start. And yet the United States has been able to take very good care of itself up to this time, and will continue to do so if it does not permit itself to be thrown out of balance by hysterical and loud-mouthed shouters about "unpreparedness."

Charles Sumner Bird has declined to seek the G. O. P. nomination for governor of Massachusetts at the invitation of Democratic-Republican (with Progressive leanings) Foss. Genial Gene has gone down to Cohasset to think things over.

The most sensible thing the striking Chicago carpenters have done since the beginning of the trouble is to agree to mediation. It would have been better for them and the city if this had been done before striking.

There is to be no more professional football in England till after the close of the war, but horse racing is to go on as usual. It is difficult to adjust things to the point of perfect consistency.

A slight earthquake shock was felt in Tacoma the other day. No damage was done, but this sort of thing does not enhance the attractions of the San Francisco exposition.

## PEOPLES' OPINION

### That Firemen's Convention.

Editor Herald: I notice that someone wants the Veteran and Active Firemen to join hands and work for the state firemen's convention and give them a good time. This association is an active firemen's affair and is supposed to meet for business and not for jollification. Not much has been accomplished at recent conventions for the benefit of the firemen, plenty of talk, which is cheap, but it takes money (something the association is not very strong on) to run a convention and meet the claims of disabled members of which there have been quite a few in the past year or so. Portsmouth gave the delegates too good a time at the only meet in this city, which has never been equalled and probably never will be. Let the Veterans look out for the New England muster. The active firemen will attend to the convention.

### AN ACTIVE VETERAN.

Better Car Service for Church-goers and School Children.

Editor Herald: It would seem that if proper representation of the way the Elliot High school pupils are obliged to walk in a pouring rain and stand there unprotected to await the car, were made to the A. S. L. R. R. officials, when only two poles back a store would shelter them, an arrangement might be made for the benefit of the pupils. Most towns and cities give school children some discount from regular rates, and in a family where two or three children attend school the carfare is quite an item of expense. To the citizens of this town who are in a position to know, the abolishing of the "hump" from Spinnaker's Bridge to Rosemary was a big mistake on the part of the railroad for it has kept many a nickel from its coffers.

In stormy weather quite a few people would ride to church either Advent would insure a wetting, so they would insure a wetting, so they either remain at home or walk the whole distance. In connection with

the contribution to the support of the church, few people feel they can afford 20 cents for a ride of a mile each way. In the case of pupils, many are obliged to sit in their wet clothing at school, or else remain at home, either a menace to health or an interruption to their studies, which can ill be afforded.

## FIREGRAPHS

Portsmouth has waited twenty-five years for an armory and got it. The fire department has waited longer than that for a central station, and haven't got it yet.

Councilman Bennett says he believes the way to build armories is to have banquets. How would it be for the firemen to have a few banquets and invite the mayor and city council? Perhaps that would bring the much needed central fire station which the mayor referred to in his inaugural.

About the only objection, the city council of Dover has to the purchase of an auto truck is that the city will be obliged to put on three more permanent men.

The fire department has got some new hose, if they get nothing more this year.

We notice they are to change the whistle of the fire alarm recently installed at the Eldridge Brewery. If that is the only thing found not satisfactory they will be lucky. They got what they paid for. The best is always the cheapest in the end.

The permanent men have drawn their vacations. They start July 1st.

## DR. BANCROFT MAY REFUSE

Friends Doubt His Return to  
Superintendency of the  
State Hospital.

Word received from Dr. Charles P. Bancroft by friends in Concord gives the impression that the doctor may not accept the appointment of superintendent of the state hospital made by the board of control last month. This is in line with the general belief among his friends after the investigation, who asserted that he would not take a reappointment under any circumstances, his only wish being that vindication be given him of the implied charges by the majority members of the Felker board of control.

At the time of his reappointment it was the general belief that Governor Spaulding merely made the nomination through a desire to make the vindication complete, rather than with any expectation that Dr. Bancroft would resume his former position. The tenor of the first reports from California, where the doctor was at the time of his re-appointment, indicated that he might have changed his mind and would resume the superintendency.

The doctor is due to return east within a few days as he set May 5th as the probable date of his return in a communication to Benjamin W. Cochrane, one of his supporters on the Felker board of control, who notified the doctor by wire of his reappointment. When he returns a definite statement as to his intentions will no doubt be made.

## WILL WORK HARDSHIPS

Will Also Bring Out Kitchen  
Dives and Pocket  
Peddling.

The present board of license commissioners will shortly retire from office but they did not forget to start something before quitting the job by the throwing of a bomb among the many hotel keepers of the state by a ruling which they made at the 11th hour and delivered by mail on Saturday last.

It is the opinion of not a few that this action is politics and nothing more, and is likely to cause a houseful of appeals and trouble for the board that succeeds them. If this ruling which prohibits a hotel keeper from providing liquor to a bonafide guest on Sunday is allowed to stand, it will work extreme hardships to the proprietors and many of them may as well prepare to go out of business. It will have a bad effect in more ways than one and will certainly lead to the peddling of pocket booze and kitchen dives in this and other cities, and will require no end of police work to attempt to check it.

It came as no mild surprise to the hotel men from the fact that the commission has not at any time before during its term of office made any alarming move of any kind in the management of liquor traffic.

## CURRENT OPINION

Education of Children  
Is Impractical and  
Artificial.

The trouble with our educational system is that it straps children to school seats for five hours a day, gives them monotonous, impractical and artificial instruction in reading, writing and arithmetic and then expects that in some miraculous way the result will be a rising generation full of health, virtue, intelligence, knowledge and industry. Under such circumstances children are not educated.

Stated in simple terms, the true object of school education should be to teach children how to live and how to earn a living.

In order to attain this object the school should guard a child's health, build up his character, develop his intelligence, teach him the elements of knowledge and train him to habits of industry.

The fact is that the public is beginning to realize that the actual school problems are social and economic problems and not pedagogical problems, and the time is not far distant when teachers will no longer be permitted to dictate school conditions regardless of economic and social needs.—By William Wirth, Superintendent of Schools at Gary, Ind.

## CHARLIE WHITE VS. EDDIE MURPHY

Clever Lightweights Who  
Meet in the A. A. A. Ring  
in Boston, Tuesday  
Evening.

Charlie White, the Chicago lightweight whose great fighting during the past year has given him a world wide standing in his chosen profession, will make his Boston debut with Eddie Murphy of South Boston, Tuesday night at the Atlas A. A. The appearance of White in Boston should prove of interest inasmuch as he is a reliable performer and always gives satisfaction.

His record bristles with victories. He has met all the top line fighters in his class and is a challenger for the world's lightweight title. White makes the 133 pound mark easier than any man in his class, and like George Dixon who was king of the featherweights for years, he finds that light work is all that he needs to prepare. Then when the time comes to enter the ring, White retains his strength and he can hit hard and get the desired results. In one of his recent bouts, that, with Sam Robideau of Philadelphia, he blighted the career of Sam and ended his championship aspirations.

In the coming match he will not fly for the fringes and he knows just how White works in the ring, he doesn't expect to experience the trouble outpointing the Chicago man, that some of White's admirers predict. White's long suit is scoring with the right. As Murphy has a left that breaks up that kind of hitting, he plans to outpoint the Windy City favorite by steady jabbing. There is considerable interest in the bout.

Belgian Brown and Young Jasper will appear in the semi-final. Patsy Green and Joe Boudreau will appear in the opening bout, while Walter Watts of Providence and Young Clancy will appear in another six round bout.

HER 55th BIRTHDAY

A very pleasant gathering took

place on Sunday evening at the home of George W. Snow, 393 Court street, the occasion being the 55th anniversary of his mother, Mrs. Henry Pearson.

At 7 o'clock all sat down to a bountiful repast which consisted of potatoes, lobster salad, ice cream, cake, sandwiches, olives, ham and chicken, and coffee.

After the guests had satisfied the inner man they adjourned to the parlor where the evening was passed with vocal selections by Mrs. Henry Pearson, Messrs. Snow and Day, and graphophone selections. The feature of the evening was a character sketch by Mrs. Annette Lynch.

Among those present were: Mr. and Mrs. George W. Snow, Mrs. Henry Pearson, Mr. and Mrs. George Moore, Jr., Mr. and Mrs. M. J. Lynch, Mr. Herbert B. Dow and Miss Annette Moore.

The guests departed at a late hour, wishing Mrs. Pearson many happy returns of the day.

The Players' Club will present "Her Husband's Wife" on Thursday evening only. Seats now selling at Harvey's jewelry store. Price, 50 cents.

### To the Business Men of Portsmouth

The prosperity of a city is in direct proportion to the local pride. Where local pride runs high, prosperity has a firm foothold. Such a town is a good place to live and do business in.

Paint helps to a remarkable degree in spreading an impression of prosperity throughout a community. It gives a fresh, new, inviting look wherever it is used. Municipal buildings, stores and homes feel its good effects. Growing business is bound to be one of the direct results of a liberal use of paint, not from any magic in the paint, but because of the pride which is stimulated.

## LYFORD WAS NOT APPOINTED

Governor and Council Name Other Members of Bank Commission.

The governor and council in session Saturday named two of the three members of the new bank commission but withheld the appointment of the chairman. It was supposed that the opposition to James O. Lyford for this position has been overcome, but this appears not to have been the case. The other members are Frederick S. Nutting of Manchester, for four years; and Guy H. Cutter of Jaffrey for two years.

Arthur L. Willis was appointed commissioner of motor vehicles for five years.

The forestry commission appointment goes to George B. Leighton of Dublin, who succeeds Benjamin P. Greer, a Progressive.

William B. Wright of Keene was re-appointed on the board of examiners in optometry for five years; and George A. Bowers of Nashua on the dental commission for three years.

The governor and council confirmed three fish and game wardens nominated by Commissioner Deal. They are George F. Wellington of East Dover, George F. Wellington of East Dover, and Peter Smith of Concord. All are reappointments. Under the new law the wardens have to be appointed for stated terms.

It is presumed that Commissioner Deal sent in more nominations, but these are all that were confirmed. Confirmation was given the appointment of Earle C. Gordon and Mrs. Rose M. Buzzell to clerkships in the office of the state treasurer.

## GERMANS FIRE ON U. S. FLAG

WASHINGTON WILL DEMAND REPARATION FOR CUSHING OUTRAGE IT IS SAID.

The Hague, May 2.—The German aeroplane attack on the American tanker Cushing in the North Sea last Wednesday was described as absolutely unwarranted by Capt. Larz Herland of the Cushing tonight. Capt. Herland detailed the attack in substance as follows:

The steamer was making about 17 knots an hour in latitude 51.45 North, longitude 2.30 East, when the aeroplane was observed circling around the ship. It was about 7 o'clock in the evening and was broad daylight.

Almost the entire crew of 33 came on deck to look at the aeroplane. They could see plainly the German colors and the Maltese Cross, as the flying machine was less than 1000 feet high.

Suddenly a waterspout rose about a foot from the port quarter, throwing tons of water on the steel decks. Everyone thought the vessel had struck a mine. Then a second waterspout rose at a similar distance and in the same position. Chief Engineer William Allyn ordered the crew to take to shelter, and as they did so a third bomb hit the rail near the davits in the vicinity of the smokestack.

This missile exploded and splinters were scattered for a distance of 50

feet on the after deck, one even striking the forward ventilator and several passing through and tearing the American ensign. The captain thereupon ordered the crew to their boat stations as it seemed evident that the aviators were aiming at the smokestack and in event of an explosion with 5000 tons of inflammable oils aboard, the vessel probably would be destroyed immediately.

The weather was clear at the time and, in the opinion of the skipper, the aviators could not fail to see the flag and the name of the vessel, which was painted in six-foot letters on both sides of the hull.

The aeroplane, however, flew off at great speed toward the British coast. Upon reaching Rotterdam the captain of the Cushing made a report of the affair to American Consul Gen. Lister.

The Cushing, which was formerly the German tanker, Prometheus, will leave Rotterdam for New York today with the Stars and Stripes painted brightly all over her hatchways.

## MEMBERS OF STORER POST HONOR THEIR DEAD

(Continued from Page One)

bute to the memory of those of our comrades who have gone to their "Eternal Camping Ground" during the past year and whose hallowed memories are enshrined in our hearts; this beautiful and impressive service is greatly enhanced by the no less beautiful custom of the public schools of our city, in joining with the comrades in their loyal, patriotic and deeply appreciated by Storer Post, it is therefore, a source of pleasure to me to be detailed and honored by you St. to present, for introduction, a granddaughter of an honored deceased comrade, who was one of the brave men of Company "K" of the 12th M. I. Vols.

Commander: I have the honor of presenting Mrs. Laura Elizabeth Marshall. She spoke as follows: "Commander, Officers and Comrades of the Grand Army:

"As Memorial Day draws near, it again reminds us of the hardships and struggles that you endured for your country. Just fifty years ago now, General Lee gave up the fight and surrendered to General Grant. Then the long war was over and those of you who persevered came home jubilant though sorrowing for your brave comrades who had fought so gallantly and died so bravely for their country. This year also brings to your minds the fiftieth anniversary of the assassination of your beloved president who rallied your troops and helped to unite our State.

"We realize Mr. 'Commander' that your ranks are growing thinner every year. Each of these five stars represents a dear comrade who has died since your last memorial service.

"Every year it has been the duty of one class of this city to present to you a wreath in memory of your comrades who passed away during the year. And now in behalf of my class I present to you this wreath and with it our best wishes for the next year and years to come. We also sincerely hope that never in the coming years may your children or your grandchildren be called to war by the beat of the drum or the note of the bugle. Our great work is to strive to keep this world in universal peace and to do our duty to our country as faithfully in our way as you have done in your way."

Miss Marshall is a pupil at the Whipple school and delivered her address in an able manner.

### Records of Deceased Comrades

After a selection by the quartet Commander Charles B. Dodge directed the Post Adjutant Charles L. Hoyt to read the names of the comrades who had passed away during the past year. During the reading of the names there was marked silence and as Adjutant Hoyt finished the record of each a bugler from Fort Constitution gave taps and a drummer sounded the long roll. Their records were as follows:

Comrade Francis P. Young, born in Roxbury, Vt. Entered the service May 5, 1861 as a private in Co. D, 74th New York Volunteers. Discharged May 30, 1862 owing to disability. Length of service one year and 20 days. Mustered as a comrade of Storer Post, No. 1, by transfer from A. R. Hurlburt Post, No. 60, Department of Vermont, Jan. 5, 1914. Died Dec. 11, 1914 aged 73 years.

Comrade James M. Goodrich, born in Portsmouth, entered the service Nov. 3, 1863 as third assistant engineer U. S. Navy. Discharged July 10, 1865, owing to end of war. Length of service one year, eight months, seven days. Joined Storer Post July 20, 1904. Died Jan. 3, 1915, aged 50 years.

Comrade William E. Barrett, born in Portland, entered the service Sept. 12, 1862 as a private, Co. D, 13d Mass. Vols. Reenlisted Aug. 1, 1864 as a musician in Lafayette Artillery. Length of service 10 months and twenty-three days. Mustered into Storer Post, Nov. 4, 1908 by transfer card from Louis Bell Post of Manchester. Died Jan. 15, 1915, aged 75 years.

Past Commander William Y. Evans, born in Portsmouth, entered the service Feb. 1, 1862 as nurse on the U. S. S. Kearsarge and was discharged from same ship Nov. 29, 1861, when ship was placed out of commission. Length of service two years, seven months and twenty-eight days. Mustered into Storer Post May 4, 1881, elected Commander in 1900. Died March 24, 1915, aged 73 years.

Comrade Charles F. Goodwin born in Acton, Me. Entered the service Sept. 22, 1862, as a private in Co. K, 16th New Hampshire Vols. Reenlisted Sept. 3, 1864, as sergeant in Co. K, 1st Regiment, Heavy Artillery. Length of service one year and eight months. Mustered into Storer Post April 20, 1881. Died April 20, 1915 aged 74 years.

### Remarks by Chaplain Doolittle

The following timely remarks were made by Chaplain Joseph S. Doolittle, Comrades, Members of W. R. C. and Friends:

Once more we are assembled to honor the memory of those, our Comrades who have been mustered out of the armies on earth, and now are in the land where all is peace. While we deplore our loss, we are mindful of the great gain that is theirs, for now, free from pain and suffering they are

reaping the reward of lives consecrated to God and Home, and Native Land. To those of younger generations these lives that went to God from bloody battle-field, in hospitals, or in the loathsome prisons of the south are something intangible, to us they are very real. With us they shared the weary march, the bivouac, and other scenes far too tragic to mention today, but wherever they gave up their young lives, their need of praise shall be the same. Of those who were permitted to return and live in homes of quiet, many have fought a life-time battle against diseases, contracted in the miasmatic regions of the south, and wounds received in battling for the right. We shall miss them in our gatherings, yet we cannot wish for their return to suffer more. Ere long the last of these who responded to their country's call shall have passed away, but a grateful nation will keep their memory green.

"Oh! silent Grand Army, though scattered so widely, The grass grows above you, like a green velvet pall, The sunshine by day shine on you all brightly, The same moon and stars looks down on you all."

The years are fast fleeting, Oh, silent Grand Army, Not long are the last that are living today.

Will be cradled so gently in Mother Earth's bosom, And the living Grand Army shall have all passed away."

Address by Rev. F. J. Scott

The address by Rev. F. J. Scott, pastor of the Methodist church, was as follows:

"Honored members of the Grand Army of the Republic, and friends—Not inappropriately, as I will a little later show you, there are two phases of the Divine Being that I wish to present to you this afternoon. One, His relationship as Governor of the world of men; His relation to human history in its totality or grand divisions, and His relation to individuals.

A great king of old said—a man most versatile in talents and accomplishments, a great soldier, a general, a statesman, a poet, a musician, a religious man, the great King David, 'For the Kingdom is the Lord's; He is the ruler over the nations.' Well, if that is true it lends coherence, intelligence to history. There is some intelligent progressive principle and purpose in history. Its events are not meaningless, unrelated accidents. As Tennyson puts it: 'I doubt not thro' the ages our increasing purpose runs.' A purpose implies a person. There is a plan of a Person a Mind in history.

"Necessarily a very great Person, a Being that persists through men, and nations and races, decay and pass away, a Being very Patient, whom the swift passing of the years, as it seems to us does not disturb, very evidently a Being with whom a thousand years are as a watch in the night, to whom time is nothing, who is not limited by it, who can abundantly afford to take the longest processes—a Being whom we call God.

"Now it is a very striking thing that so long as the world adhered to local deities, so long there failed to be any universal history of the world—or any worthy attempt at a history of the world. I will remember a big book full of pictures called the History of All Nations which I used to ponder as a little boy, especially the pictures. Such a book would have been impossible many centuries ago, not only because men had not the facilities for collecting the facts for such a book, but partly because they lacked both the disposition and the necessary viewpoint so to do. In many instances men didn't care what was the history of another nation. They were fanatical patriots and idolaters. They were interested only in their own country and their own country's god. They had not reached in general to the clear conception of a God of all nations having a definite purpose for each nation, much less had they conceived of God having one great purpose for all the nations. But as men came more and more to realize the existence of a one God above all the nations and races, ruling over and in them, and as too they realized more and more that He is a Loving God desiring ardently the good and greatness and happiness of men, so the basis for a universal history was found, and not only the basis for it but the inspiration for it. Where did men get these hazy ideas that made a historical principle for the whole world, the idea of His Universal Government, and that His purpose in history is one of love to men? From this revelation known by men as the Christian Religion. It is in the revelations and histories and great statements recorded in the Bible that men have found and believed in the one God of the world, who so loved the world that He gave His only begotten Son for it. Has China, heavy with age ever written a Universal history? Has India with its ancient system—ever had the data or the vision to attempt such a work?

"So God was in the Civil War of the United States of America, in which you men participated so heroically. He is in this present European war, He has been in every war of men from the beginning of their social life. As the Bible puts it, He is 'the God of battles.' Through all the carnage and horrors of war the Supreme Ruler of the Universe has been working as fast as He wisely could for man's sure and established progress and benefit. Under His patient leadership the right has been winning against the wrong, the good against the evil, the true against the false, the just against the unjust, the noble against the ignominious, the pure against the impure, the clean against the filthy, the light against the darkness, the life against the death, the truth against the falsehood, the right against the wrong, the good against the ### ANTI-SUFFRAGE NOTES

When studying the suffrage states marked "White States" or "Free States," don't forget that there should be marked "Mormon States" also. The Mormon church was the originator of the vote for women idea in this country and when Utah obtained statehood in 1896 the Mormon priest who dominated the Constitutional convention which framed the organic law, restored the woman suffrage proviso because they knew it increased the proportionate Mormon vote. Ex-Senator

for Frank J. Cannon of Utah is quoted as saying that politically the Mormons control Utah by sheer numbers; by holding the balance of power they have practical control in Idaho and Wyoming, their influence is great in Nevada, Arizona, New Mexico, Colorado, Montana, Washington, California and Oregon. It is significant that every one of these states is a woman suffrage state except New Mexico.

"Colorado" John P. Irish, the famous opponent of Bryan in the Free Silver debates writes from California: "There is an increasing pressure from non-voting women here, reinforced by thinking men for the initiative measure cancelling suffrage out of the Constitution. It has been a flat failure."

With reference to moral conditions in San Francisco the American Social Hygiene Association points out as indicative of general laxity that there has been an increase in the number of questionable dance halls in that city.

On January 4, 1915, there were 137 permits for such places existing—37 in the notorious Barbary Coast district, 10 in the general region of the New Tenderloin, 10 in the so-called Beach District, and 7 near the entrance to the exposition grounds. San Francisco has long had and has today a segregated district for prostitution. It was hoped that by the passage of the red-light abatement law this district and other houses of prostitution throughout the city would be closed so that visitors to the exposition would not be confronted with the open and flagrant vice. Largely to meet this situation the law was passed by the legislature of 1913 and approved by the people at the general election last November.

But the law has not been used and seems likely to remain unused during all or part of the exposition period. On account of these conditions, "The Survey" of April 10 tells us that danger signals are being flashed all over the country to young people bound for the Exposition, without money, friends, or a definite position, as there is much unemployment and the city's moral conditions gives cause for anxiety—and yet California women have the vote!

### WHERE STRAWBERRIES COME FROM

Washington, D. C., May 1.—A recent survey of the production and marketing of strawberries in the United States made by the Department of Agriculture indicates that the eight most important commercial strawberry districts are: Central California, Tennessee, Maryland, Delaware, Southern Louisiana, North and South Carolina, Virginia and the Ozarks. In 1914, 1905 carloads of strawberries were shipped from Central California. Lesser quantities were shipped from the other districts which are named in the order of their importance. From the Ozarks, came 748 carloads last year.

The authors of the survey which is published in Bulletin 137 of the U. S. Department of Agriculture, "Strawberry Supply and Distribution in 1914" point out, however, that the North plays a more important part in the strawberry industry than these figures might indicate. Great quantities of berries are grown in the north in small patches and shipped to market by trolley, express or in the producer's wagon. Only a very small proportion of northern grown berries are concentrated into carload lots, the basis for the government survey. In the south, however, on the Pacific coast where berries are shipped long distances, it is economical to arrange to have them sent by carloads.

The bulletin already mentioned contains a list of all shipping stations in the United States where carload shipment of carloads sent out in 1914. Of these, 2312 came from California, the state's closest competitor being Tennessee with a total of 1,571. Another chart in the bulletin shows the duration of the shipping seasons in the various sections. Strawberries begin to leave Central Florida as

early as December and the movement continues until the end of March. By the first of March the first strawberries from Southern Texas and Southern California find their way to the market. About the middle of March the Louisiana crop begins to move, continuing about two months, or until the middle of May. May, is indeed, the great month for carload shipments. By far, the greatest part of Tennessee and Virginia crop is shipped at that time, as well as much of the Delaware, Southern Illinois, and Maryland supply. By the end of June Southern California is almost the only area from which carload shipments are being made. The strawberries then on the market are chiefly grown in small quantities in areas close to the great consuming sections.

In connection with this work the Department of Agriculture is conducting a telegraphic market news service of the daily movement of strawberries to the various large markets during the current season together with the prices received. Reports of these movements and prices are telegraphed daily to producing areas and consuming centers in order to assist in the profitable distribution of the crop.

## CHRISTIAN SCIENCE; IS IT SCRIPTURAL?

"The Wages of Sin is Death."  
"The Soul That Sinneth, It Shall Die."

Sickness and Death Abnormal Conditions—Healing a Restitution Work, Church Differentiated From the World—God Omnipotent and Omnipresent, but Not Omnipresent—"God is a Spirit"—His Personality—Man Created in the Divine Likeness.

PASTOR RUSSELL

New York City, May 2.—Pastor Russell's discourse at the New York City Temple today was a continuation of his masterly address of last week. His text was, "There shall be no more death, neither sorrow, nor crying, neither shall there be any more pain, for the former things are passed away."—Rev. 21:4.

The speaker briefly referred to last week's discourse, and said that having, he believed, fairly stated the facts and claims of Christian Science, he would now inquire whether or not its teachings are Scriptural. He holds that Christian Science is in conflict with the Bible. The Scriptures distinctly aver that God created man perfect—in His own image and likeness, morally, intellectually, and that Adam's disobedience was sin, punishable with death. Christian Science denies this, declaring that there is no death.

"Mother Eddy," striving after a truth, taught there is no pain, no sickness, no sorrow, etc. "The truth after which she was feeling, but did not fully grasp, is that sin, sickness, sorrow, death, are abnormal conditions—the result of the curse which came upon our race in the beginning. He agreed with Mrs. Eddy that sin, sickness, sorrow, death, are not designed by God to be everlasting conditions. The Bible assures us that the result of Messiah's work of redemption will be the obliteration of these."—Rev. 22:3.

### Healing a Restitution Work.

The speaker then demonstrated conclusively from Scripture that healing is Restitution work, and will be practiced in the world during the Messianic Kingdom. Restitution is not promised to the Church, but a new nature—the Divine—obtainable only by participation with the Redeemer in the "sufferings of this present time." (Romans 8:18.) Neither Jesus nor His Apostles experienced healing—nor did any of the early Church, so far as the record shows. Nor was this because none of them were sick. Jesus Himself was very sick in Gethsemane, and fainted on the way to the Cross. St. Timothy had dyspepsia; but, instead of healing him, St. Paul wrote to him advising a certain diet. Miracles of healing were the exception, and were for convincing the people that the Church had the Divine approval.

While the Pastor commended Christian Scientists for their endeavors to hold to the Bible, he reminded them that not the letter of the Bible will enlighten and sanctify, but its spirit, its real meaning. This is obtainable, not by confusing definitions, but by accepting in simplicity of mind the words for what they are, and putting them together in logical order. That things are not in right condition any one can see; and they will not be right until the Redeemer shall assume His kingly office and remove the curse.

But since Christian Science fails to recognize and state clearly these facts, it follows that the cult is not Scriptural; and however attractive its teachings may be to some, they cannot be relied upon, because they are off the true foundation—recognizing neither the facts of sin and death nor the necessity for redemption from these conditions by Jesus' sacrifice of Himself. Furthermore, Christian Science does not see the difference between the Church of Christ, in process of selection for more than eighteen centuries, and the world, which will not be dealt with until the Church is glorified.

The remainder of the discourse was devoted to the Scriptural teaching in respect to God. Nothing in the Bible declares that God is omnipresent—present in everything and place. Whoever thinks of Him thus necessarily thinks of Him as impersonal. "God is a Spirit." (John 4:24; Hebrews 12:10.) The Scriptures set forth His Justice, Wisdom, Power and Love—qualities not attributable to a principle; for principles have no personality, and are not dependent upon circumstances, conditions or places.

Our friends opposed to woman suffrage make a great point of the argument that giving the vote to women will do away with chivalry. But if it is chivalry that provides a 72-hour week for working women in some states, pays scrub women \$22 a month and allows babies to make flowers in the tenements of New York City for 12 cents a day, the sooner we get rid of chivalry and get down to brass tacks, the sooner we can look ourselves in the face with respect," says Owen R. Lovejoy, general secretary of the National Child Labor Committee, one of the leading social statistics authorities in the United States.

# BROTHERHOOD OF ST. ANDREW ANNUAL CONVENTION ENDS

## Big Open Meeting Sunday With Able Speakers a Feature of the Last Day.

The last day of the session of the 27th annual convention of the New England Assembly of the Brotherhood of St. Andrew was marked by the big public meeting which was held at the Colonial Theatre Sunday afternoon. The meeting was largely attended and the addresses of the speakers were greatly enjoyed by the audience. The excellent singing was a feature of the meeting.

Henry S. Bowen of Boston, president of the New England Assembly, acted as chairman of the meeting, the subject of which was "Fighting the Kingdom of the World." Dr. John Wilkinson, Jr., of Philadelphia, president of the Junior Assembly of that city, spoke on "The New Recruit, the Boy," and the Very Rev. F. L. Verdon, D. D., dean of St. Luke's Cathedral,

Portland, Me., delivered a fine talk on "The Seasoned Fighter, the Man." The final service of the convention was held at Christ church at 7.30 o'clock Sunday evening when Rev. P. Gavin Duffy, Superior of the Society of the Divine Compassion, New York City, gave the charge to the members of the brotherhood. Following this service the chapter officers met in the parish hall to discuss plans for the coming year.

On Saturday afternoon the following officers of the assembly were elected for the ensuing year: President, Henry C. Bowden of Boston; Vice-President, G. B. Cunningham of Worcester; Treasurer, F. C. Avery of Portland; Chaplain, Rev. Charles Le V. Brine of this city; Secretary, Thomas D. Ruxton of this city.

## MANAGER IS MISSING

Also Funds of a Co-operative Store on Russell Street.

The police department received a call from several Italian residents in the North End district today who reported that the manager of a co-operative store on Russell street is among the missing and it is alleged that about \$200 of the funds is also missing. The present manager has been in charge there but a short time and he is known to have collected several bills on Saturday. Today when some of the people having an interest in the place found the doors locked and the manager missing, they decided that there was something wrong and immediately asked the aid of the police. A search was at once instituted for the much wanted manager.

### DOUBLE MURDER AT WAKEFIELD

(Special to The Herald)
